### CAREER OBJECTIVE

As an experienced AWS Cloud Engineer in the AWS business unit of [Propensity Labs Inc](#), I have a demonstrated track record of developing and implementing scalable solutions using AWS services.

With my in-depth understanding of AWS services, I have helped deliver high-quality and efficient applications that have improved business operations.

Experience in Python, well-versed in Compute, Database, Storage, Security, Networking, and content delivery.

A dynamic Cloud Engineer with expertise in AWS, I am looking for new opportunities in Cloud Computing to design and deploy scalable, secure, and efficient solutions to drive successful outcomes, ensure data privacy, and contribute to organizational growth.

### TECHNICAL SKILLS

- Programming Language – Python, SQL.
- Cloud Technologies: AWS SageMaker, AWS EC2, S3, AWS RDS, AWS DynamoDB, Lambda Function, IAM, CloudWatch.
- Operating Systems – Linux, Shell Scripting
- Databases - MySQL, RDS, DynamoDB
- Word Processing & Documentation - Microsoft Office Word, Microsoft Office Excel, Microsoft Office PowerPoint.

### Licenses & Certifications

- [AWS Solution Architect Associate certified](#)
- [AWS Cloud Practitioner certified](#)
- [Databricks Lakehouse and fundamental](#)

## PROFESSIONAL EXPERIENCE

### AWS Cloud Engineer

June – Nov 2023

Deploying a Three Tier Architecture Application on AWS Cloud

managed the development and implementation of an AWS Cloud platform Three-Tier Architecture application that is highly scalable and resilient, delivering optimal availability and performance.

Expertise in CloudFormation: Designed and optimized CloudFormation templates to manage infrastructure as code, simplifying provisioning, scaling, and maintenance.

Troubleshooting - During the Three-Tier Architecture project, challenging problems were skillfully found and resolved, improving system reliability and efficiency in operation.

Collaborative Leadership: Collaborated with cross-functional teams, providing technical guidance and along with promoting efficient communication to achieve project milestones.

#### Responsibilities:

EC2, VPC, RDS, CloudFormation, S3 Bucket, CloudFront, Security group, Lambda Function, CloudWatch, IAM Role setup, IAM Policy, User management, Auto-Scaling, Load Balancer, RDS, DynamoDB.

## ACADEMIC DETAILS

Education Level	Institute Name	Year of Passing	Board / University	Marks Obtained
Master of Computer Application	Yashaswi International institute of management science, Pune	2023	Savitribai Phule Pune University	8.50 CGPA
Bachelor of Science (Microbiology)	Dr. DY Patil ACS collage, Pune	2021	Savitribai Phule Pune University	64.20 %
H.S.C	SMV, Yeola	2017	Maharashtra State Board	61.23 %
S.S.C	SMV, Yeola	2015	Maharashtra State Board	69.00 %

## ACHIEVEMENTS

- Student Coordinator at Rubicon Personality development and Employability Training
- Barclays Training Workshop Attended

## PERSONAL DETAILS

- Nationality - Indian
- Languages - English, Hindi, Marathi
- Date of birth - 01-10-1999
- Gender - Male
- Address - Hinjewadi, Pune- 411057

Hereby I declare that the above-mentioned information is true to the best of my knowledge.
